ABOUT

I worked as an Analyzer technologist at Equate Petrochemical Co. Shuaiba, Kuwait. I am a student of Quran/Grammar. I prepared download-able files for simple and easy learning of Quran, it's **Transliteration**, **Multilingual** translations, **WordbyWord** translations **Grammar topics, Features** and **Family Tree**.

All in “Excel format” with Nice, Easy and user friendly search capability.

HELP tab is there in each file, you can search by **Sura**, **Aaya**, **Para**, **Roots**, **Words**, **Part of word** and **Grammar Topics**. Click the **link** next to the **searched Word**, it will jump quickly to the same word location in the Holy Quran or (**WordbyWord/Grammar then Quran in case of WordbyWord/Grammar file**)

This search function is very helpful to find all the locations against one topic and also useful for quick learning and easy understanding.

NOTE: Do not **OPEN** any file **online** (means directly from website) but first **SAVE** it, then **OPEN** it from your **PC**.

If it opens as protected mode, just click “**Enable Editing**” at the top of the file and go to **HELP** tab for assistance.

If some mistakes or errors detected in Excel files.

I would greatly appreciate it, if **you** kindly give me feedback with file name and error reference. I will do my best to fix it as early as possible. These files should be error free, and the person, who will take part to improve these files, will have endless reward from **ALLAH subhana-hu-wa-Ta’ala**.

NOTE:- Some videos are there for realizing the realities that Quran is from ALLAH Subhanahu wa Ta’ala.

All Green highlighted are links to web page,

- One should stop at one of the two sets of dots, but not the other. The reader has their choice as to which of the two sets beside would like to stop at.
- It is equally permissible to pause or to continue.
- This letter 'Z' is an abbreviation of al-wajh al-mujawid. It means that making a stop here is correct all right, but the better choice is not to make a stop here.
- One should stop here lengthening the sound but not the breath. This is generally inserted at a place where a continued reading is likely to cause an erroneous projection of meaning.
- Indicates that the sentence has not yet been completed at this point but, because the sentence has become long, here is the place to breathe and stop rather than do it elsewhere.
- It is better to stop here.
- Indicates that the end of Juz' or section.
- Indicates not to stop (restriction (though there are differing opinions on whether to stop reading the verse or not).
- Means that you can stop or move on, but stopping is more preferred than continuing on.
- This word is 'Iq' which means 'Stop' and it is inserted where the reader may possibly think that a stop was not correct there. ■
- It is not permissible to pause.
- It is compulsory to pause.
- At this sign of saqifah, one must stop a little longer than saqifah (pause). But, breath should not break here too.

LEARN HOLY QURAN WITH GRAMMAR

July 27, 2014 by Muhammad Arshad in Grammar

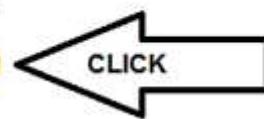

First time on excel sheet 'Learn Holy Quran with Grammar (Rev 6.1)'

A different approach for easy learning of Quran. See the Help Tab before starting search in Holy Quran.

It was a huge task and Alhamd-o-lillah, by the grace of ALLAH I completed this task successfully, but updating process will be there for improvements. If some typo errors or other mistakes are there, Insha-Allah as it would be detected, it will be corrected in the next version and for this task I also urge your help, In such a case mail me by some known reference and type of error, it would be corrected as early as possible and you will get endless reward from Almighty ALLAH.

Keep yourself update with the latest revision of this file and delete all old versions for the sake of safety.

The screenshot shows the Microsoft Word 2010 ribbon at the top. The 'HOME' tab is selected. Below the ribbon, a 'Search Index Filter' dialog box is open, overlaid on the main document area. The dialog box has a yellow background and contains the following list of filter options:

- Sort A to Z
- Sort Z to A
- Sort by Color
- Clear Filter From "B1:B100"
- Sort by Color
- Text Boxes

A red arrow points from the 'Sort A to Z' option to the 'OK' button at the bottom right of the dialog box. The background shows a table in the document with columns labeled 'B1', 'C1', 'D1', 'E1', and 'F1'. The 'Actual Word' tab is selected in the ribbon.

Scroll little bit, you will find the word [\[link\]](#)
